

From start to end – your Ph.D. Application Checklist

Preparation of a Research Proposal

- If you are not yet involved in a research project, do some literature research and identify a suitable research topic.
- Identify a potential supervising department of the Ph.D. MR - CVS program.
- Seek research funding opportunities.
- Compose a comprehensive and well-structured research proposal using the provided template.

For research projects conducted outside the LMU University Hospital, secure a local supervisor.

Preparation of Curriculum Vitae (Europass recommended).

Scan all required documents, including:

- High School Certificate

- Degree certificates

- Degree transcripts (for international students, ensure they bear an official stamp and signature from the registrar!)

- English language certificate

Sign all necessary statements (templates available), including those for:

- Financial support

- Medical doctors (if applicable)

- Local supervisor (if applicable)

Write a Motivational Letter.

Secure two academic referees.

Register in the MMRS online application portal.

Complete and submit your application.
