

Postdoc in the Epidemiology of Allergic Diseases (m/f/d)

Kinderklinik und Kinderpoliklinik im Dr. von Haunerschen Kinderspital

The Hospital of the University of Munich, Germany, is one of the largest and most competitive university hospitals in Germany and Europe. 48 specialized hospitals, departments and institutions harbouring excellent research and education provide patient care at the highest medical level with around 11.000 employees.

WORKPLACE	Neuherberg	DATE OF ENTRY	01.08.2025
WORKING HOURS	Full time/Part time	APPLICATION DEADLINE	30.06.2025
INSTITUTION	Kinderklinik und Kinderpoliklinik im Dr. von Haunerschen Kinderspital	REFERENCE NUMBER	2025-K-0206
DEPARTMENT	Abteilung für Stoffwechsel- und Ernährungsmedizin		

Scope of duties

We are looking for a postdoctoral fellow with a passion to work in the field of allergy research within a multidisciplinary team.

The main tasks will include:

- Independent development and pursuit of research questions
- Analysis of large complex datasets, including longitudinal cohort data, environmental data and OMICS data (e.g. genomics, proteomics, metabolomics, single-cell transcriptomics and epigenetics)
- Manuscript preparation and presentation of results
- Support in the supervision of PhD and graduate students
- Contribution to various projects within the team and with external project partners
- Opportunity to write independent grant applications

Our requirements

- Doctoral degree in epidemiology, biostatistics, or a related field
- Prior experience in researching allergic disease or immunological endpoints, related to the analysis of OMICS data
- Thorough knowledge of statistical methods and programming skills, including R software and associated packages, as well as epidemiological modeling techniques
- A strong track record of published research, demonstrating the ability to conduct high-impact studies
- Excellent writing and communication skills in English
- A passion for advancing knowledge in public health and epidemiology, with high motivation and commitment to pursue research projects independently and in collaboration

If you have obtained a university degree abroad, we require further documents from you regarding the recognition of the degree. Please request the recognition as early as possible.

Our offer

- A balanced work-life balance is encouraged.
- Flexible working hours and working-time models are offered.
- Continuous education and training are supported.
- 30 days of annual leave are provided.
- On-site health management services are available.
- Home office options are offered.
- A company pension scheme is available.
- Discounted public transport tickets are provided.
- Remuneration is based on the Collective Agreement for the Public Sector of the Länder (TV-L) including all allowances customary in the public sector. The position is (initially) limited to 2 years.
